

Brain Tumour Research

Brain tumours kill more children and adults under the age of 40 than any other cancer

Just 1%
of the national spend on cancer research has been allocated to this devastating disease

16,000 people diagnosed
with a brain tumour every year

Up to 40%
of all cancers spread to the brain

National funding for research into brain tumours needs to increase to £35 million a year

Less than 20% of those diagnosed with a brain tumour survive beyond five years

We are influencing the Government and larger cancer charities to invest more in brain tumour research nationally

**Help us fund the fight
Together we will find a cure**
